Independent Auditor's Report

The Board of Trustees
American Indian College Fund
Denver, Colorado

Report on the Financial Statements

We have audited the accompanying financial statements of American Indian College Fund, which comprise the statement of financial position as of June 30, 2018, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Indian College Fund as of June 30, 2018, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited American Indian College Fund's 2017 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 4, 2017. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2017 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Note 1 - Principal Activity and Significant Accounting Policies

Organization

The American Indian College Fund (the College Fund, we, us, our) invests in Native students and tribal college education to transform lives and communities. During our 2018 fiscal year, we provided scholarships to over 5,900 students seeking to better their lives through higher education. However, the College Fund provides more than just scholarship support. We provide meaningful support all along the college pathway to support students in becoming employable graduates. The College Fund coaches high school students with their college readiness, selection, and financial aid. We support students with transitioning from two year-institutions to four-year institutions. Career readiness support includes internships, mentoring programs, resume building, interviewing and networking skill development, and other career exploration experiences. We also provide support for tribal college needs, ranging from capital support to cultural preservation curricula. The College Fund serves large proportions of non-traditional students, those with dependent family members, first-generation college students, and many others who previously had little to no support for post-secondary education. The College Fund receives no local, state tax, or federal support. We work with the private sector to raise funds crucial to the success of American Indian students in achieving their academic and career-readiness goals.

Comparative Financial Information

The accompanying financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America (GAAP). Accordingly, such information should be read in conjunction with our audited financial statements for the year ended June 30, 2017, from which the summarized information was derived.

Adoption of FASB Accounting Standards Update 2015-07

As of July 1, 2017, we adopted the provisions of FASB Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*, which are effective for fiscal years beginning after December 15, 2016. ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net assets value practical expedient in Accounting Standards Codification 820.

Cash and Cash Equivalents

We consider all cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, to be cash and cash equivalents. Cash and highly liquid financial instruments restricted to endowment or other long-term purposes are excluded from this definition.

Investments

We record investment purchases at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair values in the statement of financial position. Net investment return is reported in the statement of activities and consists of interest and dividend income, realized and unrealized capital gains and losses, less investment management and custodial fees.

Promises to Give

We record unconditional promises to give expected to be collected within one year at net realizable value. Unconditional promises to give expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the statement of activities. We determine the allowance for uncollectable promises to give based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Promises to give are written off when deemed uncollectable. At June 30, 2018 the allowance was \$14,305.

Property and Equipment

We record property and equipment additions over \$1,000 at cost, or if donated, at fair value on the date of donation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from three to thirty-one-and-one-half years. When assets are sold or otherwise disposed of, the cost and related depreciation are removed from the accounts, and any resulting gain or loss is included in the statement of activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed currently.

We review the carrying values of property and equipment for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment during the year ended June 30, 2018.

Investments Held For Others

We manage investments on behalf of the tribal colleges and universities (TCUs). Assets received, investment return, and distributions are recorded as an increase or decrease in the asset and the related liability.

Perpetual Trust

We are the sole irrevocable beneficiary and trustee of a perpetual trust. The trust provides for the distribution of the net income of the trust to us; however, the assets of the trust are to be maintained in perpetuity. Trust assets are included in the Endowment.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets available for use in general operations. Unrestricted board-designated net assets consist of net assets designated by the Board of Trustees for endowment.

Temporarily Restricted Net Assets – Net assets subject to donor restrictions that may or will be met by expenditures or our actions and/or the passage of time, and certain income earned on permanently restricted net assets that have not yet been appropriated for expenditure by our Board of Trustees.

We report contributions as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently Restricted Net Assets – Net assets whose use is limited by donor-imposed restrictions that neither expire by the passage of time nor can be fulfilled or otherwise removed by our actions. The restrictions stipulate that resources be maintained permanently but permit us to expend the income generated in accordance with the provisions of the agreements.

Revenue and Revenue Recognition

Revenue is recognized when earned. Contributions are recognized when cash, securities or other assets, an unconditional promise to give, or notification of a beneficial interest is received. Conditional promises to give are not recognized until the conditions on which they depend have been substantially met.

Donated Services and In-Kind Contributions

Volunteers contribute significant amounts of time to our program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by generally accepted accounting principles. Contributed goods are recorded at fair value at the date of donation. We record donated professional services at the respective fair values of the services received. During the year ended June 30, 2018, we received donated television and radio air time and magazine and newspaper print space, with a total estimated value of \$1,411,555 to broadcast and publish our public service announcements.

Advertising and Direct Marketing Costs

Advertising and direct marketing costs, which include donated public service announcements and direct marketing solicitations and donor engagement, are expensed as incurred, and totaled \$4,923,049 during the year ended June 30, 2018.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the statement of activities. The statement of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The College Fund is organized as a Washington, D.C. nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3), qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi), and has been determined not to be a private foundation under Section 509(a)(1). We are annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, we are subject to income tax on net income that is derived from business activities that are unrelated to our exempt purpose. We have filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS. We did not incur significant income tax expense during the year ended June 30, 2018.

We believe that we have appropriate support for any tax positions taken affecting our annual filing requirements, and as such, do not have any uncertain tax positions that are material to the financial statements. We would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred. The College Fund's Forms 990-T and other income tax filings required by state, local, or non-U.S. tax authorities are no longer subject to tax examination for years before 2014.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and those differences could be material.

Financial Instruments and Credit Risk

We manage deposit concentration risk by placing cash, money market accounts, and certificates of deposit with financial institutions believed by us to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, we have not experienced losses in any of these accounts. Credit risk associated with promises to give is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from corporate partners and foundations supportive of our mission. Investments are made by diversified investment managers whose performance is monitored by us and the Investment Committee of the Board of Trustees. Although the fair values of investments are subject to fluctuation on a year-to-year basis, we believe that the investment policies and guidelines are prudent for the long-term welfare of the organization.

Subsequent Events

We have evaluated subsequent events through November 3, 2018, the date the financial statements were available to be issued.

Note 2 - Fair Value Measurements and Disclosures

We report certain assets at fair value in the financial statements. Fair value is the price that would be received to sell an asset in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets that we can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. These include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset. In these situations, we develop inputs using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to our assessment of the quality, risk or liquidity profile of the asset.

A significant portion of our investment assets are classified within Level 1 because they are comprised of open-end mutual funds, domestic equities, and exchange-traded energy master limited partnerships with readily determinable fair values based on daily redemption values and closing market prices. Domestic corporate bonds, U.S. Government obligations, and domestic asset-backed mortgage securities are valued by the custodians of the securities using pricing models based on credit quality, time to maturity, stated interest rates and market-rate assumptions, and are classified within Level 2.

We use net Asset Value (NAV) per share, or its equivalent, such as member units or an ownership interest in partners' capital, to estimate the fair values of a domestic fixed-income fund, pooled hedge funds, and a pooled floating-rate fund which do not have readily determinable fair values. Investments that are measured at fair value using NAV per share as a practical expedient are not classified in the fair value hierarchy.

American Indian College Fund
Notes to Financial Statements
June 30, 2018

The following table presents assets and liabilities measured at fair value on a recurring basis, except those measured at cost or by using NAV per share as a practical expedient as identified in the following, at June 30, 2018:

	Total	Fair Value Measurements at Report Date Using			Investments Measured at NAV
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

American Indian College Fund

Notes to Financial Statements

June 30, 2018

Investments in certain entities that are measured at fair value using NAV per share as a practical expedient were as follows at June 30, 2018:

	Number of Investments	Fair value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Domestic fixed-income fund	1	\$ 4,384,572	\$ -	Daily Monthly/ 25%	None 30/ 60/ 90
Pooled hedge funds	4	9,696,936	-	Quarterly	Days
Pooled floating-rate fund	1	4,495,690	-	Quarterly	30 Days
		\$ 18,577,198	\$ -		

Domestic Fixed-Income Fund – Fund focused on fixed income investments primarily in the United States.

Pooled Hedge Funds – Funds that can invest in multiple strategies, including long and short positions in liquid global equity, exchange traded funds, futures, forwards, swaps, currency and futures options contracts. Fund managers may invest in value, growth, or event-driven equity opportunities and typically are not restricted by market capitalization, industry sector, or geography. Leverage may be utilized, which can magnify changes in the values of the underlying securities.

Pooled Floating-Rate Fund – Funds seek to maximize total returns by investing primarily in senior secured, floating rate loans of non-investment grade companies, and can invest in a variety of strategies. The funds also invest in floating rate bonds, notes or other debentures.

Note 3 - Net Investment Return

Net investment return consists of the following for the year ended June 30, 2018:

Operating investments		
Interest and dividends		\$ 231,043
Net realized and unrealized gain		128,059
Less investment management and custodial fees		(135,590)
		223,512
Endowment investments		
Interest and dividends		880,434
Net realized and unrealized gain		2,490,183
Less investment management and custodial fees		(139,211)
		3,231,406
		\$ 3,454,918

Note 4 - Promises to Give

Unconditional promises to give are estimated to be collected as follows at June 30, 2018:

Within one year	\$ 7,088,209
In one to five years	1,419,833
Greater than five years	150,000
	8,658,042
Less allowance for uncollectable promises to give	(14,305)
	\$ 8,643,737

Promises to give appear as follows in the statement of financial position:

Promises to give, net	\$ 8,179,108
Endowment promises to give, net	464,629
	\$ 8,643,737

Promises to give due in more than one year are not discounted to present value because the amount of the discount is immaterial.

Note 5 - Property and Equipment

Property and equipment consists of the following at June 30, 2018:

Land	\$ 100,000
Building and improvements	2,318,674
Furniture and equipment	545,093
	2,963,767
Less accumulated depreciation	(1,068,930)
	\$ 1,894,837

Note 6 - Endowments

Our endowment (the Endowment) consists of approximately 120 individual permanent endowment funds, a purpose-restricted term-endowment fund (term endowment), and a perpetual trust of which we are the trustee. The individual endowments and the term endowment were established by donors to provide annual funding for scholarships and support to tribal college students and tribal colleges. The term endowment is to be invested and spent over a period of ten years. The perpetual trust, known as the Leibowitz Trust, was established to provide annual unrestricted support for our operations. Our Endowment also includes certain unrestricted net assets designated for endowment by our Board of Trustees. Net assets associated with our Endowment are classified and reported based on the existence or absence of donor-imposed restrictions. Pursuant to the terms of the Leibowitz Trust, the annual net investment return of the Trust is available for our unrestricted use without requiring appropriation for expenditure, therefore it is reported within the unrestricted net assets category. Accordingly, the net investment return of the Trust is not included in the changes in endowment net assets presented below.

Our Board of Trustees has interpreted the Washington, D.C. Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, unless there are explicit donor stipulations to the contrary. At June 30, 2018, there were no such donor stipulations. As a result of this interpretation, we classify as permanently restricted net assets (a) the original value of gifts donated to the Endowment, (b) the original value of subsequent gifts donated to the Endowment (including promises to give net of discount and allowance for doubtful accounts), and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. The remaining portion of the donor-restricted endowment is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by us in a manner consistent with the standard of prudence prescribed by UPMIFA. We consider the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the organization and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the organization
- The investment policies of the organization

As of June 30, 2018, we had the following endowment net asset composition by type of fund:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Board-designated endowment	\$ 16,482,952	\$ -	\$ -	\$ 16,482,952
Purpose-restricted term-endowment	-	1,040,443	-	1,040,443
Leibowitz perpetual trust	-	-	2,606,722	2,606,722
Donor-restricted endowment	-	8,376,093	28,245,372	36,621,465
	<u>\$ 16,482,952</u>	<u>\$ 9,416,536</u>	<u>\$ 30,852,094</u>	<u>\$ 56,751,582</u>

Investment and Spending Policies

We have adopted investment and spending policies for the Endowment that attempt to provide a predictable stream of funding for operations. Over time, long-term rates of return should be equal to an amount sufficient to maintain the purchasing power of the Endowment assets, to provide the necessary capital to fund the spending policy, and to cover the costs of managing the Endowment investments. Actual returns in any given year may vary from this amount. To satisfy this long-term rate-of-return objective, the investment portfolio is structured on a total-return approach through which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends).

Our Board of Trustees appropriates amounts for distribution each year as necessary to fund scholarship and grant expenses as determined by the Board of Trustees. In establishing this policy, the Board of Trustees considered the long-term expected return on the endowment and current needs. Accordingly, over the long term, we expect the current spending policy to preserve the permanently restricted net assets of the endowment. This is consistent with our objective to preserve the original fair values of the original gifts made to the Endowment as well as to provide an opportunity for real growth through new gifts and undistributed investment return.

American Indian College Fund

Notes to Financial Statements

June 30, 2018

Changes in Endowment net assets for the year ended June 30, 2018 are as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning of year	\$ 18,118,748	\$ 8,571,959	\$ 29,408,430	\$ 56,099,137
Investment return				
Investment income, net of fees	195,393	545,830	-	741,223
Net realized and unrealized gain	712,769	1,777,414	-	2,490,183
	908,162	2,323,244	-	3,231,406
Contributions	-	-	1,443,664	1,443,664
Distributions	(2,543,958)	(1,478,667)	-	(4,022,625)
Endowment net assets, end of year	\$ 16,482,952	\$ 9,416,536	\$ 30,852,094	\$ 56,751,582

Note 7 - Restricted Net Assets

Temporarily restricted net assets at June 30, 2018, consist of:

Promises to give that are not restricted by donors, but which are unavailable for expenditure until due	\$ 1,372,366
Restricted by donors for	
Scholarships and other student support	8,447,460
Faculty PhD and masters fellowships	2,427,955
Cultural preservation program	683,702
Early Childhood Education projects	1,607,458
Enviromental sustainability programming	603,284
TCU infrastructure projects	197,515
High school and first year experience programming	245,000
Other grants and programs	1,434,871
	15,647,245
Endowment	
Unspent appreciation of Endowment funds which must be appropriated for expenditure before use	
Restricted by donors for	
Scholarships	6,170,153
Cultural preservation	1,584,722
TCU support, staff development and other	621,218
	8,376,093
Purpose-restricted term-endowment for scholarships	1,040,443
	9,416,536
	\$ 26,436,147

Net assets were released from restrictions as follows during the year ended June 30, 2018:

Expiration of time restrictions	\$ 323,975
Satisfaction of purpose restrictions	
Scholarships and other student support	5,512,919
Faculty PhD and masters fellowships	347,301
Cultural preservation program	250,319
Early Childhood Education projects	119,198
Enviromental sustainability programming	748,458
TCU infrastructure projects	1,083,655
High school and first year experience programming	254,853
Other grants and programs	889,274
	<u>9,205,977</u>
Restricted-purpose appropriations	
Scholarships	1,214,390
Cutural preservation program	189,446
TCU support, staff development and other	72,254
Purpose-restricted term-endowment for scholarships	2,577
	<u>1,478,667</u>
	<u>\$ 11,008,619</u>

Permanently restricted net assets consist of a perpetual trust and endowment funds restricted by donors for investment in perpetuity. Distributions from the perpetual trust and earnings on endowment funds are available for the purposes specified by the donors, or in certain cases, for our unrestricted use. The permanently restricted net assets balances, classified by restriction on the use of earnings, are as follows at June 30, 2018:

Leibowitz perpetual trust - distributions available for general use	\$ 2,606,722
Endowment	
Scholarships	21,902,482
Cultural preservation program	3,020,000
TCU support, staff development and other	3,322,890
	<u>28,245,372</u>
	<u>\$ 30,852,094</u>

Note 8 - Cy Pres Contribution

In *Keepseagle v Vilsack*, a class action case, the United States District Court for the District of Columbia approved a modified settlement agreement between the Department of Agriculture and a class of plaintiffs comprising Native American Farmers. Pursuant to the terms of that settlement agreement, \$38 million was to be placed into the Native American Agriculture Fast Track Fund (the NAAFTF). As recommended by the Keepseagle Class Counsel and approved by the United States District Court for the District of Columbia, the American Indian College Fund was one of 34 beneficiaries awarded cy pres funds from the NAAFTF. We received a commitment of \$824,000 to award scholarships to Native American students studying in agricultural related fields. This scholarship funding is to be disbursed to students over a four-year time period.

Note 9 - Employee Benefits

We sponsor a tax-deferred plan (the Plan) qualified under Section 403(b) of the Internal Revenue Code covering substantially all full-time employees. The plan provides that employees who have attained the age of 21 may voluntarily contribute a percentage of their earnings to the Plan, up to the maximum contribution allowed by the IRS. Employer contributions are discretionary and are determined and authorized by the Board of Trustees annually. During the year ended June 30, 2018, we contributed 2% of each qualifying employee's wages and matched employee voluntary contributions up to 5%, resulting in contributions to the plan of approximately \$193,000.

Note 10 - Related Party Transactions

Certain members of our Board of Trustees also serve as tribal college presidents. Those colleges are eligible, along with all other tribal colleges, to receive scholarship and other direct funding awards from the College Fund. Typically awards are distributed on an objective or equal basis among all the tribal colleges. During 2018, approximately \$3 million was distributed to tribal colleges whose presidents also serve as Trustees for the College Fund.

During the year ended June 30, 2018, a member of our Board of Trustees served as an executive and owner of a company from which we purchased approximately \$460,000 of advertising, social media, and consulting services.

Note 11 - Contributions by Source

During the year ended June 30, 2018, contributions, excluding special events, were received from the following sources:

Individuals	\$ 6,103,719
Bequests	3,761,806
Corporations and corporate foundations	7,558,668
Charitable foundations	6,525,364
	<u> </u>
	<u>\$ 23,949,557</u>
